Purpose:

The purpose of this memorandum is to update the guidelines for the preparation of the Small Business Subcontracting Plan.

Federal Requirements:

The Federal Acquisition Regulations (FAR-52.219) requires a Small Business Subcontracting Plan to be filed for all federal contracts exceeding \$650,000. Prime contractors must agree to purchase a percentage of the supplies and services required for the performance of the contract from small and minority-owned businesses. Some federal agencies set specific goals. Most rely on the prime contractor to make a "good faith effort."

Introduction:

A Small Business Subcontracting Plan sets forth percentage goals for utilizing small business concerns, including separately identified goals for disadvantaged small businesses, women-owned small businesses, HUBZone small businesses, veteran owned small businesses and disabled veteran owned small businesses. The institution must file the plan with the contracting officer who may approve it or ask for modifications based on the goals that have been stated. Small Business Administration (SBA) may perform a pre-award review and reject the plan if the plan does not show that "the maximum practicable opportunity" is offered to small businesses. Failure to comply with the plan will result in potential monetary penalties and non-compliance, which gets documented and will affect future funding for the institution.

Guidelines:

The principal investigator (PI) must determine the goods and services that he or she will need to be obtained through subcontracting a portion of the research program budget. Small business subcontracting goals are then developed through consultation with FACTS. In conjunction with the PI, FACTS will assist in finding vendors to meet the goals that have been set in the plan by searching through the SAM.gov website, small business administration's website and vendors that contact the institution directly. The fact that goods and services from the small business vendors may cost more is not an acceptable excuse for not using them.

Justification must be made if the percentage in a given category is miniscule or not existent. Good faith effort needs to be shown in order for the institution not to be penalized.

Categories and Definitions of Small Businesses:

1. Small Disadvantaged Business (SDB) - A small business which is at least 51% owned by one or more socially and economically disadvantaged individual which include African-American, Hispanic American, Native American, and Asian Pacific.
2. Women-Owned Small Business (WOSB) – A small business which is at least 51% owned by and operated by a woman or women.
3. HUBZone Small Business (HUBZone) - A small business that is owned or controlled by at least by 51% by a U.S. citizen or a Community Development Corporation or an Indian tribe. Its principal office must be located within a “Historically Underutilized Business Zone.”
4. Veteran-Owned Small Business (VOSB) – A small business which is at least 51% owned by a veteran.
5. Service-Disabled Veteran-Owned Small Business (SDVOSB) – A small business that is at least 51% owned by one or more service disabled veterans.

Statutory goals have been established for Federal executive agencies. They are:

- 33 percent of prime contracts for small businesses;
- 5 percent of prime and subcontracts for small disadvantaged businesses;
- 5 percent of prime and subcontracts for women-owned small businesses;
- 3 percent of prime contracts for HUBzone small businesses;
- 3 percent of prime and subcontracts for service-disabled veteran-owned small businesses.

In addition, each individual agency has a set of goals that they establish for each contract.

Reporting:

FACTS Administrator will monitor goals monthly. To ensure compliance, semi-annual and annual reports are filed on-line with the Electronic Subcontracting Reporting System (ESRS). The reports are then reviewed by SBA and the contracting officer to see if they meet the goals that are set in the Small Business Subcontracting Plan.

For additional information or help with preparing the plan, please contact Rosaria McEntee, FACTS at (212) 731-7067.

The U.S. Department of Health and Human Services (HHS), Office of Small and Disadvantaged Business Utilization (OSDBU) recommend offerors use the following format to submit proposed Individual Subcontracting Plans, including modifications. It is not intended to replace any existing Corporate/Commercial Plan that is more extensive. A subcontracting Plan is required if the estimated cost of the contract **may exceed \$650,000 (\$1,500,000 for construction)** Small businesses are excluded. Questions should be forwarded to the Contracting Officer or Operating Division (OPDIV) Small Business Specialist.*

"SUBCONTRACT," as used in this clause, means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime contractor or subcontractor requesting supplies or services required for performance of the contract or subcontract.

If assistance is needed to locate small business sources, contact the Small Business Specialist (SBS) supporting the OPDIV. SBS contact information is located on the OSDBU website (<http://www.hhs.gov/about/smallbusiness/osdbustaff.html>) or you may contact the OSDBU headquarters at (202) 690-7300.

All subcontractors, except small business concerns, that receive subcontracts in excess of \$650,000 (\$1,500,000 for construction) must adopt and comply with a plan similar to the plan required by FAR 52.219-9, "Small Business Subcontracting Plan." The Contracting Officer will confirm reporting requirements prior to the issuance of an award. For more information, contact Teneshia Alston, Agency Coordinator-eSRS (Teneshia.Alston@HHS.GOV).

7. Record keeping

Your company has established and used such procedures: _____ yes _____ no

9. Description of Good Faith Effort

Maximum practicable utilization of SB, SDB, WOSB, HUBZone, VOSB and SDVOSB concerns as subcontractors in Government contracts is a matter of national interest with both social and economic benefits. **When a contractor fails to make a good faith effort to comply with a subcontracting plan, these objectives are not achieved, and 15 U.S.C. 637(d) (4) (F) directs that liquidated damages shall be paid by the contractor.** In order to demonstrate your compliance with a good faith effort to achieve the SB, SDB, WOSB, HUBZone, VOSB and SDVOSB small business subcontracting goals, outline the steps your company plans to take.
