

Ansley Unterberger, MD

Neurosurgery Resident, Class of 2030
Department of Neurosurgery
Icahn School of Medicine at Mount Sinai

Clinical and Academic Interest in Skull Base and Neuro-oncology

What made me choose Mount Sinai...

I chose Mount Sinai because (beside the superb clinical training and exceptional research and mentorship opportunities) I felt that the program established a framework of success while embracing a “choose your own adventure” mentality. The faculty emphasized strengthening each resident’s unique qualities and teaching them to use that to bring value to the world. This culture of innovation and creativity inspired me.

Undergrad

Emory University
Neuroscience and Behavioral Biology

Medical Degree

UCLA David Geffen School of Medicine

Recognition and Awards

Viola G. Hyde Scholarship Fund and Research Award

STTP Research Grant at David Geffen School of Medicine

Clinical and Academic Interests

- Skull Base
- Neuro-oncology

Meta-analysis of adjuvant radiotherapy for intracranial atypical and malignant meningiomas.

Journal of Neurooncology

Adjuvant radiotherapy for atypical meningiomas is associated with improved progression free survival.

Journal of Neurological Science

Hometown

Laguna Beach
California

Current Location

Upper East Side
New York City

Languages you speak

English
Spanish

General Interests

- Art • Guitar • Fictional Literature
- Volleyball • Travel

Favorite Activities

- Drawing / painting
- Medical Illustrations
- Polaroid Photography
- Pampering my cats
- Hot yoga
- Going to the beach
- Running
- Kickboxing

Favorite Things in New York

- Pickleball
- Drag shows
- Concerts
- Running in Central Park
- Exploring restaurants and bakeries
- Exhibitions

Future Goal

I hope to work at an academic institution where I can contribute to furthering the field through both operative and investigative modalities

Guilty Pleasure

Taki's
Harry Potter

Favorite Movie

Hitchhiker's Guide to the Galaxy

Favorite TV Show

RuPaul's Drag Race

Favorite Book

Persuasion (Jane Austen)
