

Abhiraj Bhimani, MD

Neurosurgery Resident, Class of 2026
Department of Neurosurgery
Icahn School of Medicine at Mount Sinai

Clinical and Academic Interest in
Exosomes, Bioinformatics, Spinal Deformity, Endovascular Neurosurgery

What made me choose Mount Sinai...

Mount Sinai has extraordinary clinical training complemented by a very high patient volume. Coming from Chicago, I found New York City to be the perfect match in terms of size and diversity. It is a unique combination of a nationally recognized hospital in a world-class city, with equally exceptional neurosurgeons. Mount Sinai has outstanding faculty that are dedicated to their mentorship towards the residents. I enjoy the experience of being exposed to a diverse group of patients and a multidisciplinary team of providers.
