

Mitra Deghan Harati, MD

Medical School: Yazd University of Medical Sciences

Email: mitra.degghanharati@mountsinai.org

Profile: Mitra is an AP/CP resident whose experiences at UCLA and TJU have solidified her yearning for pathology. As pathology plays a major role in patient care in a multidisciplinary team, she wants to be a part of the team. She hopes to work in an academic setting to pursue research, teaching students and residents, and continue learning. In her spare time, Mitra enjoys painting and outdoor activities.

Maryam Kooshesh, MD

Medical School: Tehran University of Medical Sciences

Email: maryam.kooshesh@mountsinai.org

Profile: AP/CP resident with deep enthusiasm in exploring different potentials that pathology can bring as a field of medicine and science. Maryam was born and raised in Tehran, Iran and earned her MD degree at Tehran University of Medical Sciences. Since moving to the United States, Maryam has done research at Johns Hopkins and Stanford universities prior to joining Mount Sinai Hospital. Outside of her work, she loves cooking and baking as much as she loves exploring new restaurants in NYC with her husband.

Peizi Li MB, MPH

Graduate/Medical School: Chongqing Medical University

Email: peizi.li@mountsinai.org

Profile: AP/CP resident, Mount Sinai allows me to work alongside leaders in the field of pathology and this is a great program with friendly people including supportive faculty. My favorite hobbies are travelling, movies and learning about history. I have a strong interest towards surgical pathology, but is still exploring different options.

Muhammad Shiraz Qazi, MBBS

Graduate/Medical School: Saidu Medical College

Email: muhammad.qazi@mountsinai.org

Profile: Current AP/CP Resident with an interest in subspecializing in Dermatopathology and Bone and Soft tissue pathology. He was born and raised in Pakistan, immigrated with parents to US, New Jersey. He is following his father's footsteps with great interest in the field of pathology. He worked for few years as a surgical pathology PA before joining residency. When he is not busy, he enjoys playing soccer and spending time with his kids.

Xinyang (Sean) Xu, DO, MS

Medical School: Kansas City University of Medicine and Biosciences

Email: xinyang.xu@mountsinai.org

Profile: AP/CP resident who is originally from China. He is a proud Buckeye as a graduate of The Ohio State University. After finishing medical school in the Midwest, he moved to the east coast for residency. He is enjoying all the great food and culture that New York City has to offer. He also enjoys college football and is always looking for a great coffee.

Soo Yeon Sohn, DDS

Medical School: Virginia Commonwealth University School of Dentistry

Email: sooyeon.sohn@mountsinai.org

Profile: Oral and Maxillofacial Resident: I went to college in Long Island, New York and moved to Richmond, Virginia for dental school. I'm happy to be back in New York for residency, especially to be in the city this time in the center of such diverse people and cultures. I became interested in oral pathology, as it is the bridge between dentistry and medicine. I'm thrilled to work and learn from other colleagues and doctors at the Mt. Sinai Hospital. It is too early to say where I'd be headed after residency, but for now I am growing my passion in pathology. In my spare time, I love traveling and exploring new restaurants.

Shenyu "Vincent" Wang, MB, MS, PhD

Medical School: Tongji University School of Medicine, Shanghai, China

Email: shenyu.wang@mountsinai.org

Profile: AP/CP Resident who has been a surgeon for many years and finally found his true calling in pathology. He is attracted to continue his career at Mount Sinai by its excellent reputation and diversity. His professional interests are surgical pathology, digital pathology, and early diagnosis techniques. He loves teaching and research. In his spare time, he likes playing the piano, basketball, badminton, and exploring nature.
