CLERKSHIP INFORMATION SHEET

Mission Statement of Clerkship:

To provide a broad exposure to the field of pediatrics so students become comfortable and competent caring for pediatric patients.

Goals of Clerkship:

- Provide students with patient encounters and learning activities that teach about acute and chronic conditions and well child care for pediatric patients of all ages.
- Provide students with the opportunity to develop the physical exam, oral and written communication skills necessary to care for pediatric patients and their families.

Objectives of Clerkship:

- Develop knowledge necessary for well child care and the diagnosis and initial management of common acute and chronic pediatric illnesses.
- Apply knowledge of growth, development, and health promotion appropriately to the care of pediatric patients from birth through adolescence.
- Demonstrate competency in the physical examination of infants, children, and adolescents.
- Demonstrate effective and articulate oral and written communication skills to facilitate clinical interactions with patients, families, and other health care workers.
- Apply clinical problem solving skills appropriately to the care of patients.
- Display attitudes and professional behaviors appropriate for clinical practice.
