

# Questions You Should Ask Your Pharmacist

- How much of this medicine should I take?
- When is the best time of day to take this medicine?
- Should I take this medicine with or without food?
- Are there foods or drinks that I should avoid while I am taking this medicine?
- What side effects can I expect from this medicine?
- Will this medicine interfere with any of my other medicines?
- How should I store this medicine?
- What should I do if I miss a dose?
- Will I need to get this medicine refilled?
- Are there refills on the prescription?
- Are there any over-the-counter (non-prescription) medicines I should avoid while taking this medicine?
